

Sediment-hosted base metal deposits

Papers published or in press
resulting from AMIRA P384 (1992–1995)

AMIRA/ARC project P384A

Final Report
December 1998

CODES SRC

Centre for Ore Deposit Research
University of Tasmania

CODES Special Research Centre
School of Earth Sciences
University of Tasmania
GPO Box 252-79
Hobart Tasmania
Australia 7001

A Special Research Centre established by the Australian Research Council.

Contents

Papers from *Australian Journal of Earth Sciences* Thematic papers "Geology and mineralisation in the Proterozoic 'Carpentaria Zinc Belt' of northern Australia." *Australian Journal of Earth Sciences*, volume 45, 1998. P.J. McGoldrick and R.R. Large, Guest Editors.

Introduction to "Geology and mineralisation in the Proterozoic 'Carpentaria Zinc Belt' of northern Australia." — P.J. McGoldrick and R.R. Large

"Structure, contents and setting of Pb-Zn mineralisation in the McArthur Basin, northern Australia." — D.E. Leaman

"Sedimentology of the Palaeoproterozoic Barney Creek Formation in DDH BMR McArthur 2, southern McArthur Basin, Northern Territory." — S.W. Bull

"Alkali alteration styles and mechanisms, and their implications for a 'brine factory' source of base metals in the rift-related McArthur Group, Australia." — G.J. Davidson

"Analysis of some fault striations in the Proterozoic southern McArthur Basin, Northern Territory, with reference to pre- and post-Roper Group stress fields." — R.A. Keele and J.V. Wright

Papers from *Economic Geology* Special Issue "New developments in metallogenic research: the McArthur, Mt Isa and Cloncurry minerals province." *Econ. Geol.* volume 92, number 8, 1998.

"A genetic model for the HYC deposit, Australia: based on regional sedimentology, geochemistry, and sulfide-sediment relationships" - R.R. Large, S.W. Bull, D.R. Cooke and P.J. McGoldrick

"K-metasomatism and base metal depletion in volcanic rocks from the McArthur Basin, Northern Territory - Implications for base metal mineralization" - D.R. Cooke, S.W. Bull, S. Donovan and J.R. Rogers

"Gravity, magnetic and radiometric evidence for the geological setting of the Lady Loretta Pb-Zn-Ag deposit - a qualitative appraisal" - Mark L. Duffett

Papers from the *Journal of Geochemical Exploration*

"Lithogeochemical halos and geochemical vectors to stratiform sediment hosted Zn-Pb-Ag deposits, 1. Lady Loretta deposit, Queensland" - R.R. Large and P.J. McGoldrick

"Lithogeochemical halos and geochemical vectors to stratiform sediment hosted Zn-Pb-Ag deposits, 2. HYC deposit, McArthur River, Northern Territory" - R.R. Large, S. Bull and P.J. McGoldrick

Proceedings of the 9th International Symposium on Water-Rock Interaction — WRI-9, Taupo, New Zealand, 1998. Edited by G. B. Arehart and J.R. Hulston.

"Variation of carbon and oxygen isotopes in the alteration halo to the Lady Lorella deposit: Implications for exploration and ore genesis" -P.J. McGoldrick, P. Kitto and R. Large

"Evidence of Proterozoic primary CaCO₃ precipitation from the McArthur Group of northern Australia" - P.R. Winefield and P. McGoldrick

Miscellaneous Papers

"The development of late Paleoproterozoic aragonitic seafloor cements within the McArthur Group of northern Australia" - Peter R. Winefield (in press).

"Feldspar metasomatism along the Proterozoic rift basin margin - 'smoke' around a base metal 'fire' (HYC deposit, Australia), or a product of background diagenesis?" - Garry J. Davidson (in press).

The importance of oxidised brines for the formation of Australian Proterozoic Stratiform Sediment Hosted Pb-Zn (SEDEX) Deposits — David R. Cooke, Stuart W. Bull, Ross R. Large and Peter J. McGoldrick (submitted to *Economic Geology*).

Practical uses of chemical modelling — defining new exploration targets in sedimentary basins — D.R. Cooke and R.R. Large
